Standard colour white & black. Other colours available on request.

Our wide mouth plastic jars are a popular range due to the extra large 110mm neck allowing your hand to easily access the contents. Made from high-density polyethylene (HDPE) food grade material, the range is ideal for a wide variety of food dispensing and storage applications. The polycell wadded caps have the additional benefit of having an induction wad available to further improve the security and quality of your product.
